FANFARO GSX 50 20W-50 6403

Universal economy-class engine oil, which is a mixture of synthetic components and a highly refined mineral base, for modern highly accelerated petrol and diesel engines with and without a turbocharger used in difficult operating conditions and engines with a very high mileage used in various operating conditions.

Product properties:

- Reduces the leakage probability and maintains the required oil pressure even for engines with a high mileage due to stable viscosity and excellent compatibility with sealing materials;
- Low volatility decreases oil consumption through burning;
- A thoroughly balanced additive package ensures an efficient service of an engine in all modes of operation: cold start, increased load (off-road and uphill driving, towing, driving with maximum load) and in high-temperature ambient conditions;
- Long-lasting oil film effectively protects from wear, reduces friction and prevents corrosion;
- Ensures reliable lubrication of all engine components under all operating conditions;
- Low ash content and good detergent and dispersing properties minimise the soot and carbon formation and keep engine components clean throughout the entire interval between replacements;
- Natural antioxidants effectively resist ageing.

Designed for the maximum protection of modern petrol and diesel engines of a wide car fleet (passenger cars, light SUVs, minibuses and light trucks) from Russian, European and other manufacturers.

The oil is not suitable for use in heavy trucks and similar vehicles!

CORRESPONDS WITH REQUIREMENTS / SPECIFICATIONS / PRODUCTS:

Specifications:

SAE 20W-50

Recommendation:

API SN/CH-4
